Birungi missed out on school because she was a girl, and from a poor family.

Today, Birungi is a business owner, working her way out of poverty. She is a role model, secure in her identity as a precious child of God.

Motivated by the relentless love of Jesus, we believe in restoration; helping individuals like Birungi and communities like hers to unlock their God-given potential. And you have a part to play.

The church is the greatest force for good on the planet. We won't stop until poverty stops. Will you join us?
